

**MID**

**Price: 239.00 €/pc.**

EAN 4010312 501207

**Three-phase energy meter for direct connection **DSZ12D-3x65A****

**NEW**

**Advantages of display energy meters:**

- Better reading due to background lighting.
- Switchable to a second tariff with MID approval.
- Legible twice within a period of 2 weeks also without power supply.
- Intermediate values legible by 2 resettable memories.
- Current value of consumption per path can be metered.
- Only 4 modules wide.
- SO interface.
- Standby loss 0.4 watt per path only. 
- Same price as energy meters with drum type register.
- MID approved, thus it can be used as calibrated meter. **MID**
