

# Wireless pushbutton lighting

## FTB-230V and FTB/8-24V UC

Wireless pushbutton lighting with LED for rear latching to wireless pushbuttons FT4F, FT55, FT4 and FT4CH.

**FTB-230V:** Supply voltage 230V.

Only 0.1 watt standby loss.

**FTB/8-24V UC:** Supply voltage 8 to 24V UC.

Only 0.04-0.1 watt standby loss.

The scope of supply contains an opaque intermediate frame for wireless pushbutton FT4 or FT4CH.

Fitted using a 55mm switch box, the LED lighting requires an installation depth of only 15mm. A 20cm long connecting wire is routed to the rear.

FTB-230V: Colour black/blue.

FTB/8-24V UC: Colour red/black.

**The gap between the rocker and the frame lights up on the wireless pushbuttons FT4F and FT55, the opaque intermediate frame lights up on FT4 and FT4CH.**

To reduce the lighting intensity replace the opaque cover with one of the two enclosed coloured covers. **Caution: You must fit one of these covers, otherwise there is the risk of electric shock.**

## Important reminder!

**This electrical equipment may only be installed by skilled electricians otherwise fire hazard or danger of electric shock exists!**
