

# Off-delay timer

## NLZ61-230V

1 NO contact not potential free 10A/250V AC.  
Standby loss 0.4 watt only.

Built-in device for installation and surface mounting. 45 mm long, 55 mm wide, 18 mm deep.

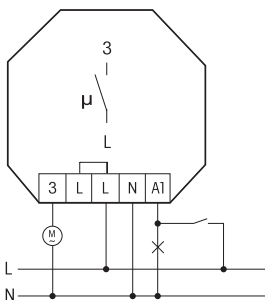

State-of-the-art hybrid technology combines advantages of nonwearing electronic control with high capacity of special relays.

The off-delay time is variable from 1 to 12 minutes.

230V control voltage, switching voltage and supply voltage.

Function: When the control contact (light switch) is closed the load (fan) is started. The set release delay RV (delay time) starts when the control contact opens; the fan stops on time-out.

### Typical connections

## Warning !

Only a trained electrician may install this equipment, otherwise there is a risk of fire or electric shock.
