## EUD62NPN-IPM/110-240V

Universal dimming actuator IP, Matter via Wi-Fi, REST-API. With power MOSFET. Dimmable 230 V LED lamps in 'trailing edge' mode up to 300 W or in 'leading edge' mode up to 100 W depending on ventilation conditions. 230 V incandescent lamps and halogen lamps up to 300 W depending on ventilation conditions. No minimum load. Only 0.7 watt standby loss.

For installation. $49 \times 51 \mathrm{~mm}$ wide, 25 mm deep.
The terminals are plug-in terminals for conductor cross-sections of $0.2 \mathrm{~mm}^{2}$ to $2.5 \mathrm{~mm}^{2}$.
Zero passage switching with soft ON and soft OFF to protect lamps.
Supply voltage, switching voltage and control voltage local 110-240 V.
The brightness level is stored on switch-off (memory).
If supply voltage fails, the device is switched off in defined mode.
Automatic electronic overload protection and overtemperature switch-off.
With control input for a mains voltage control button that may be installed in front of it.
Glow lamp current is not permitted.
The Wi-Fi link uses the 2.4 GHz frequency band and permits Over-the-Air updates (OTA).
This actuator is Matter certified and can therefore be taught-in into different ecosystems and operated in parallel. To control via Matter, a compatible Matter controller is required for each ecosystem. For Apple Home, for example, a Homepod mini, for Amazon Alexa, for example, a compatible Echo Dot and for Google Home, for example, a Nest mini.
As an option, the actuator can be configured via the ELTAKO Connect-App.
A development version of the REST API is available through the device's online product page. This is continuously being further developed.
