**FLUD14**

Capacity enhancer for universal dimmer switch FUD14/800 W, Power MOSFET up to 400 W. Standby loss 0.1 watt only.

Modular device for DIN EN 60715 TH35 rail mounting.

1 module = 18 mm wide, 58 mm deep.

Capacity enhancers FLUD14 can be connected to the universal dimming actuator FUD14/800W. By this the switching capacity for one lamp will be increased up to 200 W or alternatively for additional lamps up to 400 W per each capacity enhancer.

The two circuits to increase capacity can be created at the same time using several FLUD14s.

Supply voltage 230 V. No minimum load.

Automatic electronic overload protection and over-temperature switch-off.

The lamp type of a capacity enhancer FLUD14 in the 'Capacity increase with additional lamps' may deviate from the lamp type of the universal dimmer switch FUD14/800W.

It is therefore possible to mix capacitive and inductive loads.

---

**Function rotary switch**

Standard setting ex factory.

The switching mode "one lamp" ( ) or "additional lamps" ( ) is set with a rotary switch on the front.

This setting must be same as the actual installation, otherwise there is a risk of destruction of the electronics.

---

**Capacity increase for a lamp ( ) in dimmer switch operating modes AUTO, LC4, LCS and LC6. For operating modes EC1, 2 and LC1, 2, 3, see next page.**

**FUD14/800W:**

1.-8. FLUD14 + up to 200 W each

1) Ventilation clearance of ½ module to adjacent devices must be maintained.

---

**Capacity increase for additional lamps ( ) in dimmer switch operating modes AUTO, LC4, LCS and LC6. For operating modes EC1, 2 and LC1, 2, 3, see next page.**

**FUD14/800W:**

1.-7. FLUD14 + up to 400 W

---

Recommended retail prices excluding VAT.

**FLUD14** Capacity enhancer  EAN 4010312313763  62.20 €/pc.
Function rotary switch

This setting must be made on the front panel for ESL and 230 V LED lamps if the FUD14/800W is operated in comfort settings EC1, EC2, LC1, LC2 or LC3.

Capacity enhancer FLUD14

Capacity increase with capacity enhancers FLUD14 for dimmable energy saving lamps ESL and dimmable 230 V LED lamps in comfort settings EC1, EC2, LC1, LC2 and LC3. Also for capacity increase with additional lamps. Otherwise there is a risk of destruction of the electronics.

Housing for operating instructions GBA14 page 1-42.
