FRP65/230V-wg

**2 level wireless repeaters in the housing for single mounting 84 x 84 x 30 mm.
 Only 0.8 watt standby loss.**

The mounting plate can be screwed over a flush-mounting box with a screw spacing of 60 mm.

Supply voltage 230 V.

This repeater is only needed if the building conditions prevent undisturbed reception or the distance between the wireless pushbutton and receiver is too great.

The 2-level mode is activated. The signals from sensors and actuators are received, tested and re-transmitted with full transmitting power.

The wireless signals from another 1-level repeater are also being processed.

A signal may therefore be received and amplified twice.

Wireless repeaters need not be taught-in. They receive and amplify signals from all wireless sensors within their reception area.

FRP65/230V-wg	Wireless repeater pure white glossy	Art. No. 30065350	83,70 €/pc.
