SM/MUA-100

The SM/MUA-100 control fuse module provides a protected outgoing line from the MUA-100 surge protection device to an APZ or RfZ field.

It plugs onto the MUA-100 without the need for tools and contains an integrated miniature fuse for standard-compliant protection of the control lines. The compact design with pluggable terminals allows for easy installation and maintenance while maintaining high short-circuit resistance.

TECHNICAL DATA	
Function	Protection of APZ/RfZ lines
Type	plug-on module for MUA-100
Fuse	tube fuse 30x6 mm
Rated current	max. 10 A
Short-circuit strength	25 kA
Connection	plug-in terminal up to 1.5 mm ²
Fuse and spare fuse	6.3 A
TÜV certificate:	AN 50567910 0001

Standards: IEC 61643-11; VDE 0100-534; VDE AR-N-4100

SM/MUA-100	Fuse module for MUA-100	Art. No. 28380004	25,00 €/pc.
