Tap-radio® clock thermo hygrostat

Wireless clock thermo hygrostat with display pure white glossy for single mounting 80x80x14/33 mm or mounting in the 55 mm switch system. With adjustable day and night reference temperatures and relative humidity. Illuminated display. Preset ready to operate. Approx. 7 days power reserve. Power supply 230V. Only 0.5 watt standby loss. Smart Home sensor.

Up to 60 timer memory locations are freely assigned to the channels. With date and automatic summer/winter time changeover.

The wireless clock thermo hygrostat sends a message to the Eltako wireless network every 50 seconds when there is an actual temperature change of minimum 0.3°C or a change in humidity of 5%. A change in reference temperature or relative humidity is sent immediately. If there is no change, a status report is sent every 10 minutes. **Queries of a wireless small actuator FKS which are received approximately every 10 minutes will be answered immediately.**

A complete switching programme is preset and can be very easily changed.

The factory setting for night temperature is 18°C.

Mounting over a 55 mm switch box. 14 mm over and 33 mm into the box. 230V power supply terminals on the rear.
