WP2

wibutler pro (2nd gen.) Controller with app ELTAKO Edition. The wibutler pro (2nd gen.) is a future-proof center for building control, energy regulation and alarm messages. Due to its high flexibility, it offers a wide range of possible applications for new buildings and existing properties. It combines sustainable communication standards with variable installation options and high data protection standards. The wibutler pro (2nd gen.) is compatible with more than 300 devices from over 30 different top brands and securely networks them with each other. The cross-manufacturer and cross-trade optimization raises building services to a whole new level.
Smart home server.

TECHNICAL SPECIFICATIONS	
Dimensions	**(LxWxH) 13,2 x 13,2 x 2,6 cm**
Power supply	**input 5 V/3 A DC, power supply unit 100 V-240 V AC, 50/60 Hz**
Interfaces / Connectors - EU	**1 x Ethernet RJ45, 2 x 2.0 USB port**
Processor	**1 GHz CPU Cortex-A7 Dual Core**
Network	**WLAN IEEE 802.11 /b/g/n 2.4 GHz**
Wireless protocols	**EnOcean/868.3 MHz, ZigBee 3.0, Matter (possible in principle), TCP/IP, Low power radio/2.4 GHz, WLAN/802.11 b/g/n 2.4 GHz**
Hard disk	**integrated 4 GByte eMMC; RAM: 1 GByte RAM**
Color	**white**

WP2	wibutler pro (2nd gen.) Controller	**Art. No. 30000077**	**410,30 €/pc.***

THE WIBUTLER CONCEPT

wibutler is a manufacturer independent Professional Smart Home solution to simplify people´s everyday lives. The solution combines products of various manufacturers and needs only a single app for users to control, combine and automate all products. Using time and automation rules defined especially for this application, wibutler can assume tasks and act according to its owner´s wishes.

wibutler pro
The core of the solution is the wibutler pro 2 Controller. Thanks to multiple wireless standards (EnOcean, ZigBee 3.0, WLAN), it is extremely compatible and is capable of networking products irrespective of the manufacturer. The controller unifies the corresponding wireless standards and thus makes it possible to network products from different standards, manufacturers and industries. The wibutler pro can be used offline, which is why an internet connection is not necessary.

wibutler app ELTAKO Edition
It takes only a few clicks to network, automate and control smart products using the wibutler app ELTAKO Edition. The entire house is networked and controlled by a single app.

This is how it works:

- **Automation rules:** The wibutler organises devices to work in a team. Devices react by means of if/then rules to movements and actions such as the opening or closing of windows, doors or drawers.
- **Time control:** wibutler uses time rules to learn repetitive tasks which must be executed at particular times.
- **Remote control:** With the wibutler, the status of devices can be displayed and changed conveniently via smartphones and tablets while on the move.
- **Consumption logs:** The wibutler measures consumptions and shows where is the greatest savings potential.
- **Profiles:** defined rules are assigned to profiles (e.g. , 'Home Day/Night', 'Away' and 'Holiday'). With one click of a profile pushbutton you can change the entire house to the mode you require (e.g. 'Away': All OFF, alarm system and presence simulations ON).

* The software part is not discountable.
