# WSZ155DSS-16A MID

NEW MID

**Portable single-phase energy meter with German type plug and coupling (Type F). Suitable for indoor and outdoor use. Maximum current 16 A. Protection class IP54. Standby loss 0,4 watt only.**

Housing dimensions 155x60x82 mm, connection cable 1.5 m (including plug and coupling).  
Accuracy class B (1%).  
This portable single-phase energy meter measures active energy by means of the current between input and output. The internal power consumption of 0.4 watt active power is neither metered nor indicated.  
**The display changes cyclically every 10 seconds between the accumulated active energy in kWh and the instantaneous consumption in kWh.**  
The start current is 20 mA.  
The display can only be read when the power supply is on. However, the consumption is saved to a non-volatile memory and is displayed immediately after a power failure.  
The digital display has 7 digits. Two decimal places are indicated up to 99999.99 kWh. Above 100000.0 kWh there is only one decimal place.  
The mobile single phase meter is equipped with a mounting bracket for easy installation. This can easily be removed if not necessary.  
The power consumption is shown with a LED that flashes 2000 times per kWh.

WSZ155DSS-16A MID	Portable single-phase energy meter, MID	Art. No. 28016115	119,80 €/pc.
