

W + DW Rockers and double rockers laser engraved for pushbuttons and switches 55er design

Rockers and double rockers laser engraved.

For all pushbuttons and hand-held transmitters we provide rockers and double rockers offered in all colors and hand-held transmitters with laser engraving.

The additional title +2P will do for each arrow top (up) and bottom (down).

The additional title +IO will do for I (=on) top and O (=off) down.

The additional title +OI will do for O (=off) top and I (=on) down.

Other prints with a maximum of 6 lines must be characterized and then we engrave it in Arial font. Maximum of two lines at the top, middle and bottom.

An overview of the pictograms for laser engraving is available on page 8-17. The pictogram number is sufficient as additional designation.

If we receive an E-mail to LGI@eltako.de with an Adobe Illustrator or Corel Draw file with the extension .ai or .cdr, we engrave individual customer requirements.

If you require a new pictogram in your specifications, we only charge a lump sum - please refer to the product designation **LGI**.

For rockers without symbol use the suffix 'not engraved'.
