

HEATING WITH INTELLIGENCE - ELTAKO'S SMART HEATING CONTROL

Our 'Wireless Small Actuator' (FKS-SV) receives temperature requests via our own room temperature controller, the 'FUTH55ED,' and can execute direct as well as automated commands. This is achieved without the need for maintenance, battery replacement, or wiring, as the actuator harnesses thermal energy harvesting.

The FKS-SV can be easily adapted to nearly any valve, facilitating the efficient retrofitting of most thermostats. For instance, if one forgets to lower the heating during an extended absence, this can be managed remotely through a Smart Home app.

To do so, the wibutler pro2 or our MiniSafe2, along with the respective app, is required. When combined with a window sensor, the temperature is automatically reduced when a window is opened. Additional features such as presence detection contribute to enhancing overall comfort and saving energy.

			FKS-SV	Wireless small actuator Smart Valve	Art. No. 30000413	185,40 €/pc.
			FUTH55ED/ 230V-wg	Wireless clock thermo hygrostat with display, pure white glossy	Art. No. 30055805	105,60 €/pc.
			FUTH55ED/ 12-24V UC-wg	Wireless clock thermo hygrostat with display, pure white glossy	Art. No. 30055801	106,60 €/pc.
			FTKB-wg	Wireless window/door contact with solar cell and battery, pure white glossy	Art. No. 30000424	73,40 €/pc.
			FFG7B-rw	Wireless window handle sensor, pure white	Art. No. 30000443	76,60 €/pc.
			WP2	wibutler pro (2. Gen.) Controller	Art. No. 30000077	410,30 €/pc.
			MiniSafe2	Controller	Art. No. 30000075	315,10 €/pc.
