Eltako

PIR DETECTORS FOR ON THE CEILING, ON THE WALL AND UNDER THE DESK.

With the ever changing marketplace the way Eltako products are used also is changing. We have made a number of improvements to our existing PIR's. Now as well as an ON telegram our PIR's send out an OFF telegram. In addition, we have added two internal microswitches. the first adjusts the detector sensitivity to high or low. The second switch sets the detector to Automatic (Active), so the device will switch on and off. Alternatively it can be set to Semi-Automatic (Passive), this is sometimes referred to as Absence Detection, where the lights must be switched on manually and they then turn off automatically when movement is no longer detected.

FB55B-am

FB55B-wg

FB55B-

Wireless motion sensor for single mounting 80 x 80 x 27 mm or mounting into the E-Design55 switching system. With battery (lifetime 3 years). Smart Home sensor.

The wireless sensor can be taught in the actuators listed below and in the Wireless Building Visualisation and Control Software: FSR14, FSR61, FSR71, FTN14, FUD14, FUD61, FUD71, FZK14, FZK61, FD62, FL62, FSLA

FB55B-am	Wireless motion sensor, anthracite mat	EAN 4010312322321	81,00 €/pc.
FB55B-wg	Wireless motion sensor, pure white glossy	EAN 4010312321003	78,10 €/pc.

FB65B-wg

Wireless motion sensor pure white glossy for surface mounting 84x84x25 mm or mounting into the E-Design65 switching system. With battery (lifetime 3 years). Smart Home sensor.

The wireless sensor can be taught in the actuators listed below and in the Wireless Building Visualisation and Control Software: FSR14, FSR61, FSR71, FTN14, FUD14, FUD61, FUD71, FZK14, FZK61, FD62, FL62, FSLA

FB65B-wg	Motion sensor, pure white glossy	EAN 4010312317570	78,10 €/pc.
