

THE HOME OF INNOVATION.

*Eltako*

## 12 V & 24 V DC POWER SUPPLIES

The foundation for everything that works.

- Space-saving design
- High efficiency with low standby consumption
- Various power ratings
- Flexible application options

## RELIABLE POWER SUPPLY FOR DOOR AND SECURITY SYSTEMS

- Stable 24 V DC power supply for electromagnetic door holders and hold-open systems
- Reliable operation of intercoms and doorbell systems
- Suitable for components in continuous operation
- Ideal for residential and commercial buildings

## STABLE POWER FOR AUTOMATED BUILDING FUNCTIONS

- Power supply for blinds, roof window drives, and control systems
- Constant output voltage for reliable operation
- Compatible with common automation solutions
- Supports efficient and convenient building control

## CONSTANT POWER SUPPLY FOR SENSORS AND MEASUREMENT TECHNOLOGY

- Power supply for weather stations and sensor systems
- Precise voltage supply for reliable measurement data
- Suitable for smart building applications
- Suitable for continuous operation
