Smart Docking meets Smart Control

Loxone® iBezel/iTop integration available!

iRoom GmbH is excited to announce a new iBezel/iTop integration again. After great efforts of the Loxone software development team, iRoom is happy to officially announce the Loxone iBezel driver integration available.

The drag & drop driver module is fully integrated in the latest available Loxone Config Software (8.1.11.11) available at <http://www.loxone.com>

In case of integration questions please contact Loxone support team.

This plug and play integration also works with iRoom's iTop (limited functions)
