iRoom experiences Total Control

URC® iBezel/iTop driver available!

iRoom GmbH is excited to announce the next great iBezel/iTop integration.
After great efforts of AWE Europe Ltd. software development team,
iRoom is happy to have the URC/Total Control driver integration available.

The driver module is available on request at connect@awe-europe.com until
driver is uploaded to URC dealer portal http://www.universalremote.com.

In case of integration support please read documentation coming with the driver
or contact URC support team.

This plug and play integration also works with iRoom's iTop (limited functions)
